BOUNTY LAND.

BOUNTY LANDS.

IMPORTANT NOTICE TO

SOLDIERS, SEAMEN,

AND THEIR

Widows and Minor Children.

A BILL has passed both Houses of Congress, granting Bounty Lands to the following classes of persons, viz:

One hundred and sixty acres to all who have SERVED FOURTEEN DAYS IN ANY WAR of the United States, provided they have not received Land.

One hundred and twenty acres to all who have so served and have received 40 acres.

Eighty acres to all who have so served and have received 80 acres.

And if the soldier has deceased without obtaining 160 acres, the same allowance as above is made to his Widow, or if no Widow, to his Minor Children.

Service in the Revolution—in the War of 1812—and in all the Indian Wars, is provided for by said Act.

And all who served the above period in the drafted Militia of the State of Maine in the year 1839, in what is known as the

AROOSTOOK WAR,

Are entitled to its benefits. Also the Militia called out by State Authority, and who served the above period and whose services have been paid for by the United States, and their Widows, and Minor Children.

The subscriber is prepared to receive and prosecute all claims arising under said Act, with promptness and dispatch, and upon as reasonable terms as other Agents.

He has many Military Rolls and Copies in his possession, and especially very full ones of the Militia drafted for the Aroostook service in 1839.

As inducements to commit claims to his charge, he ventures to rely upon his long and well known experience and success in those of a similar nature.

He will, if preferred, Purchase the Land Warrants at fair rates.

Application may be made to him at his Office, or if requested by letter, he will send to claimants Declarations, with suitable directions, which may be executed without the parties leaving their homes.

To secure the receipt of a Warrant early, apply early.

LIQUID CATHARTIC

—AND—

FAMILY PHYSIC.

The most important discovery ever made in Medical Science, being a compound of Barks and Roots, which forms the most powerful, safe, and agreeable physic ever offered to the public.

THE necessity of such a medicine has long been felt both in the hands of families and physicians. Its advantages over cathartics given in the form of Pills or Powders must be obvious to every intelligent person. It operates more immediately and effectually upon the system, and at the same time is infinitely less difficult to administer, being quite agreeable to the taste. It not only produces all the effects where physic is required, but completely removes habitual Costiveness, leaving the bowels perfectly free. It expels all humors from the blood, is a certain cure for the Piles, Regulates the action of the Liver, frees the stomach from Bile, Invigorates the whole Nervous System, and removes the cause of all local pains, such as

Rheumatism, Neuralgia, Tic Doloureux, Gout, Pain in the Head, Side, Stomach, &c.

It may also be relied upon in all diseases of the Bowels—DYSENTERY, DIARRHŒA, AND CHOLERA MORBUS, yield at once to its magical influence. Again we repeat, TRY IT!—it needs not her recommendation. No family will be without it after they have properly tested its merits. Reader, if you have tried other remedies without success, despair not—relief is now at hand. Are you suffering from Scrofula, six bottles of my Liquid Cathartic will cure you. Would you be relieved from habitual Costiveness, three bottles will effect all that you desire. If you are afflicted with Rheumatic, Neuralgic, or other local pains, two bottles will free you from them.— All humors will be eradicated from the blood by three or four one to six bottles. In short, if you require a physic for any purpose, this is the most reliable, safe, and agreeable to the taste that has ever been placed within the reach of the public.

PRICE $1,00.

HAS ARRIVED!

The Voluntary Testimony of Living Witnesses, in that

Hayes' Allied Ointment,

and Humor Syrup,

IS the BEST MEDICINE ever offered to the public for the Cure of all Humors.

It has stood the test of more than seven years, and in offering it to the public we are not ignorant of its operation. We know it to be the greatest ALLEVIATOR of PAIN and SUFFERING to those afflicted with any kind of Humor, and nearly one of the greatest blessings to mankind ever before the public as we can show by the evidence of living witnesses.

Read the following—it speaks for itself.

Lawrence, June 12, 1854.

We, the undersigned, citizens of Lawrence, having used the Vegetable Allied Ointment prepared by Dr. E. D. Hayes, of this city, and being personally acquainted with the Doctor, feel pleasure in adding our testimony to all the Doctor claims for ... medicine. Unlike other remedies in the market, this preparation performs its office speedily and with certainty. The Ointment we have used with the most happy result, after vainly seeking relief by the free use of Sarsaparillas, Salves, etc., etc.

Our experience fully justifies us in confidently recommending it as the article, and the only one known to us as performing all it claims.

A. H. BUNKER, A. W. STERNS, S. THOMPSON, ASA T. SANBORN.

IT CURES

The Salt Rheum, Scrofula, Erysipelas, White Leprosy, Cancerous Humors, Ring Worm, Scald Head, Burns and Scalds, Chilblains, Piles, (a preparation expressly,) Barbers' Itch, Fever Sores and all old Mercurial Sores. It removes all those vexatious Pimples, Eruption and Moth or Mildew from the face, leaving the skin perfectly soft and smooth, adding great beauty to the complexion. Never, in no case, will it leave the least mark or scar. It will draw humors from the Stomach, Lungs, Throat, and from the Head and Eyes, by an outward application. It improves the sight wonderfully, where the eyes are troubled with humors, by removing the difficulty, and restoring the sight.

Hayes' Pile Ointment,

A Certain CURE for PILES, and all External Irritations. Directions on the bottle. Price $1.

Prepared by Dr. E. D. Hayes, and sold, wholesale and retail, by CHARLES H. KENT, General Agent for the United States and Canadas, Nos. 5 and 6 Appleton Block, Lawrence, Mass., to whom all orders should be addressed. ...

The Great European Cough Remedy.

Important to the Consumptive and the Public generally. The celebrated

Universal Cough Mixture

IS a safe and effectual Remedy for Coughs of every description, whether of children or adults, of recent or long standing.

PREPARED ONLY BY

REV. WALTER CLARKE,

Sole Proprietor, Cornishville, Maine.

Within the last twelve months thousands of bottles of the Universal Cough Mixture have been sold in the State of Maine alone, and everywhere its extraordinary power in relieving and curing diseases of the Chest and Lungs, is gratefully acknowledged; and especially in cases of obstinate and long standing Coughs, it speedily allays the unpleasant sensation in the throat which excites coughing, it promotes free and easy expectoration, and by removing the exciting cause of the cough, it frequently enables the sufferers to enjoy natural and refreshing sleep, who for weeks had been deprived of that blessing.

☞Sold in trial bottles, 25 cents each; large bottles, each containing the quantity of four small ones, 75 cents each.

Extract of a letter from Daniel Adams, Esq., of Bowdoinham, Maine.

FEBRUARY, 17th, 1855.

To Rev. Walter Clark. Dear Sir—The bottle of Cough Mixture which I bought of you at Topsham had the desired effect on my wife. She had been afflicted with a cough for two years—that bottle entirely removed it.

From Rev. Jesse Hoyt, Lewiston Falls.

BRO. CLARKE—Every bottle of the Universal Cough Mixture which you left with me, is sold—and I have several applications for more. As far as heard from, all have been perfectly satisfied with the medicine. One man, who had a cough of long standing, attended with tightness of the chest and shortness of breath, so that he was laid aside from business, purchased one large bottle, and before he had taken one third of it, was perfectly cured, and has had no cough since. He says it is the best medicine in the world, and cannot be recommended too highly.

JESSE HAYES.

From Mr. Fletcher Chick, agent for North Dexmont, Maine.

DEAR SIR—A number of the most extraordinary cures have been effected by your Universal Cough Mixture in this place. Several who had coughs of a year's standing, and others who have been doctored six months without receiving any benefit, have been speedily cured by the Universal Cough Mixture.

From Mrs. Hubbard, Thorndike, Me.

FEBRUARY 4, 1854.

To Rev. Walter Clark. Dear Sir—This certifies that I have used one bottle of your Universal Cough Mixture for a distressing cough and soreness in the lungs. I had previously taken several kinds of medicine, and had been under the care of several physicians, without obtaining the least relief, happily your Universal Cough Mixture was recommended to me. I procured a bottle, which I began to take according to directions on the label, by which in a few days I was entirely cured.

Bangor, Sept. 4, 1855.

REPUBLICAN APPOINTMENTS FOR PUBLIC SPEAKING.

Hon. John P. Hale, of New Hampshire,
will address the citizens of

Hon. **John P. Hale** will address the Republican Convention at Passadumkeag, Sept 8th.

Hon. **Israel Washburn, Jr.,** will speak at Hermon Sept 7th.

Look at Your Tickets!

Before you vote see that they are all right, for there will be extraordinary efforts used at this election, to defeat one or another of the Republican candidates by having tickets printed with the name of a Bunker candidate inserted. Don't be cheated. Have a clear Republican ticket or none, which, for Penobscot county, is as follows:

For Governor,
ANSON P. MORRILL.
For Senators,
WILLIAM R. HERSEY,
ABNER R. HALLOWELL,
LYNDON OAK.
For Clerk of the Courts,
JOHN E. GODFREY,
For County Attorney,
GEORGE W. WILCOX.
For County Treasurer,
AMBROSE C. FLINT.
For County Commissioner,
JOHN. H. HINKLEY.

Mixed Tickets!

Let every Republican look to his ticket. Some candidates have a practice of getting the tickets of each party, with their name substituted for their opposing candidate. Let no such imposition be practiced upon you this time. Don't sacrifice your candidates. They entertain your views politically, and have a claim upon your vote.

DISTANCE LENDS ENCHANTMENT TO THE VIEW. The Bangor Journal, speaking of the Democratic Whig Compromise Mass Meeting in this village last week, says that "Auburn Hall, we are informed, has a capacity of 1000 or 1200 persons, which was filled to overflowing, with an attentive audience." It is doubtful whether so many persons could, "in any manner, be packed into the hall; but it is quite certain that not more than one-sixth of that number were present at the "fusion" meeting of which the Journal speaks.—*Lewiston Journal.*

A Few Closing Words.

This is the last opportunity we shall have to address our weekly subscribers, previous to the election; and we would once more urge upon them the importance of the contest which is before them—the necessity for exertion if they would insure a decisive triumph of correct principles—and the responsibility which rests upon each and every one of them, for the use they may make of their votes and their influence. The opponents of Republican principles—the men who are prepared to throw aside and ignore all practical opposition to the advance of the slave power, and to overthrow the principle of prohibition in regulating the liquor traffic—have banded together for one final and desperate effort to carry the State, and are appealing, with a recklessness never before witnessed, to the lowest appetites and passions of men—to the cupidity, the selfishness, the prejudices, and the fears of the populace—to enable them to carry their ends.

The intelligent, high-minded, liberty-loving people of Maine, MUST GIVE THESE MEN AN OVERWHELMING REBUKE.

The election on Monday next, in this State, may be the turning point in the contest for freedom. Its results will, at all events, have a vast moral influence, either favorable or adverse, to the great cause in which the freemen of the North are now engaged. It may secure the predominance of freedom in this Republic, or—IT MAY LEAD TO THE PREDOMINANCE OF SLAVERY. The eyes of all New England—of the central Empire States—of the great West—are upon us. The voice with which Maine shall speak on Monday next, will be potent for victory or defeat to the cause of Republican freedom throughout this land. Massachusetts, New York, Pennsylvania, Ohio—all the free States—are listening for that voice, as the key note for the coming contest in the Union.—What shall be the sound of that voice? Shall it be the bold, triumphant note of FREEDOM ASSERTING ITS RIGHTS?—or shall it be the feeling, suppliant cry of a subdued people, yielding all to the demands of an odious oligarchy which claims to rule the Union?

People of Maine! You are told by selfish designing men, that the result of the State election on Monday next will have no effect upon National politics, or upon the question of slavery. BELIEVE IT NOT. BELIEVE IT NOT! The eyes of the whole Union are upon you. Both Free States and Slave States are regarding the result of this election as a decisive indication of the sentiment of the people of the North. As its result shall be, so will freemen be encouraged or disheartened in their efforts to check the advance of slavery—so will the slave power itself be intimidated, or take courage for new aggressions.

Go on, then, to your duty. Put forth your earnest, determined efforts to carry the State for freedom. Turn a deaf ear to all appeals to your selfishness, your appetites, your passions, and your prejudices—disregard the miserable, humbug, clap-trap and lies about "Deal Dow, Peck and Weaver," "the corruptions of the State Administration," the "outrages upon your rights," because rum is restricted, and the other thousand and one humbugs which are put forth to blind your eyes and bewilder your judgment, and to secure your votes for the establishment of a corrupt and selfish dynasty—*disregard these all*, we say, and act as true-hearted, intelligent American freemen—knowing the effect of your votes, and determined to throw them in such a manner as shall secure the approbation of your own consciences, and have a beneficial effect upon the rights and interests of humanity. These are the kind of "politics" which ennoble instead of degrade a man—which raise him in his own estimation, and enable him to look with proud satisfaction upon his votes and his efforts, as having been used *for the benefit of his race and the advancement of moral and Christian principle.*

The Power of Slavery.

On the 16th of June, 1820 (says the Boston Journal) while the Missouri question was pending, the Legislature of New Hampshire adopted a high-toned reply to the Virginia resolutions, which denied the right to prescribe the prohibition of slavery as a condition of the admission of new States. That address of the New Hampshire Legislature would be regarded as an "abolition" and incendiary document by those of our own times, who snuff disunion in every manly expression of sentiment upon the aggressions of slavery, but in those days it met the general concurrence of the people. The address is remarkable, just at the present time, mainly for the following prediction:

"It is apparent that slavery creates habits and interests peculiar to the States tolerating it, and that it constitutes between them a strong bond of union. To this cause is to be attributed the unparalleled unanimity of every Senator and Representative of the slaveholding States on the passage of the late act of Congress, affecting this subject.

"Should this odious bond of union be permitted to be extended, without opposition, it will soon produce such a combination of political power as may be sufficient permanently to control all the measures of the National council."

What was prophecy in 1820, is sober history at the present time. The leading measures of the government are made subservient to the interests of slavery, and no branch of the government is more devoted to those interests than the Executive, at the head of which is a son of New Hampshire.

The editor of the Piscataqua Observer, after giving the details of improvements in the erection of new dwellings and extension of factory building the present season, in the pleasant villages of Dover and Foxcroft, says:

"Our merchants, so far as we know, are doing a safe and profitable business—they may not make so much of a display as some do, in other places, yet their Boston creditors admire their modesty, and find them safe and agreeable customers. Our Academy affords uncommon advantages to those desirous of obtaining a knowledge of the languages and science—while four churches, each well filled on the sabbath, afford pleasing evidence of the general morality of the community,—the cause of temperance finds able advocates, and we are spared to a great extent the evils which intemperance entails upon society."

HAMPDEN.—Nathaniel F. Deering, Esq., was nominated for representative, by the Republicans of Hampden, at a large and enthusiastic meeting, held on Saturday evening.

The Effect of Your Votes.

The Kennebec Journal well states the tendency of votes now given against the Republican party in Maine. As they will go for arraying one of the most influential States in the Union, on the side of acquiescence in slavery aggression, the effect is truly though strongly represented. As sure as any effect can follow any cause, so surely will this be the result of a Republican defeat:

"You may vote for Samuel Wells and thus strike a blow against the Maine Liquor Law, but what will you have done besides? You will have voted to endorse the administration of President Pierce; you will have voted to approve the repeal of the Missouri Compromise; you will have voted to sustain the Missouri bullies who are forcing slavery into Kansas by mob violence; you will have voted to admit Kansas as a slave State, when she applies to Congress; in short, you will have voted to surrender the whole right of the free States to the western territories, and you will have assisted in taking one great step towards reducing our whole national government under the control of the slave power."

A Cool Proposition.

The Albany Evening Journal has the following in regard to a new proposition of the South, which will strike northern men, at least, as sudden ly cool and insulting, under the circumstances. The South, it seems, intends to hold on to Kansas, as a slave State, at any rate.—Will the people of Maine permit this State to be carried for a party which will assist the South in so doing—or at least make no practical opposition to it?

The Albany Journal says:

Minnesota, it appears by the late census, has 65,000 inhabitants. She will be ready for admission, therefore, as soon, if not sooner than Kansas. In view of this, pro-slavery journals propose a new compromise. "Give up Kansas," they say, "and we will let you have Minnesota. Thus we shall restore peace."

Suppose a thief who has purloined a pocket book, is detected in the act. He turns to the robbed individual and says: "Sir, don't let us go to law about this. Law is dangerous. Let us compromise. I will affect your watch, which I did not take, against the pocket book, which I did. I will keep the one, and you shall keep the other. Thus we shall be even, and peace will be restored!"

It strikes us this would be just about the same sort of arrangement.

SCARCITY OF GOOD TEA.—One of our citizens, who has, he assures us, often been disappointed in getting good tea when he was particular to call for a *good* article, and at the same time expressed a willingness to pay a high price for it, lately wrote to an acquaintance of his residing in New York, who has been many years in the China tea trade, asking him if he could furnish some of the real article, and received the following in answer:

"I can send you just as many or as few packages as you desire, as cheap as any one can let you have it. The fact is, the immense quantities of poor tea and trash which has been and is still being imported, is reducing the disposition to consume, and notwithstanding the increase of our population, there is nowhere near the percentage of increase in the consumption of tea, as compared with other articles, while the proportion of poor tea to good is immensely greater than formerly."

Our informant loves *good* tea, and says he is determined to have some, if there is any this side of China.

THE ARTIST'S REVENGE.—The Paris correspondent of the New York Times says:—

"The following anecdote of Horace Vernet is amusing enough, though, I suppose, there is not a grain of truth in it. The artist was coming from Versailles to the city in the cars. In the same compartment with him were two ladies whom he had never seen before, but who evidently were acquainted with him. They examined him very minutely, and commented upon him quite freely, upon his martial bearing, his hale old age, his military pantaloons, &c. The painter was annoyed, and determined to put an end to the persecution. As the train passed under the tunnel of St. Cloud, the three travellers were wrapped in complete darkness. Vernet raised the back of his hand to his mouth and kissed it twice, violently. On emerging from the obscurity he found that the ladies had withdrawn their attention from him, and were accusing each other of having been kissed by a man in the dark. As they arrived at Paris, Vernet, on leaving them, said, "Ladies, I shall be puzzled all my life by the inquiry, 'Which of these two ladies was it that kissed me?'"

REMARKABLE BALLOON ASCENSION.—On Friday morning last, at half past 10 o'clock, Wm. D. Bannister ascended in a balloon from Adrian, Mich., and at half-past 2 o'clock in the afternoon of the same day he descended in Clarion county, Penn., making he computed distance of 350 miles in four hours—87½ miles per hour. The Philadelphia Ledger says:

"After his ascent to the distance of three miles and a half, the aeronaut struck the easterly current of air, which, he says, is continually blowing in one direction. It carried him south of the lakes, through Central Ohio.

From Utah.

THE RAVAGES OF THE GRASSHOPPERS, &c.—From the Salt Lake City News of the 27 of June, we extract the following items:

The farmers in the South part of this county had several days of rejoicing last week, that the inveterate enemy of their crops had disappeared, many of them having sowed their fields for the third time; but on Friday afternoon an innumerable multitude, a cloud of grasshoppers, descended upon their farms, learning the proprietors to speculate upon the fable of the fox and the swallow, while the more hungry swarm devoured the tender blades of the third sowing, any people but L. S. D. would have been discouraged—the fourth sowing has commenced. Seed very scarce—some of the farmers are drilling the wheat, as seed has failed when sowed broadcast as usual.

The five and ten acre lots south of this city were visited with another legion of grasshoppers within the last few days, devouring the third planting of young corn. By letters from different parts of Utah county, we learn that fresh arrivals contrive to destroy the young crops nearly as fast as they appear. We regret also to learn that a bug heretofore unnoticed by the farmers, is doing considerable damage among the potatoes.

On Saturday and Sunday the grasshoppers filled the sky for three miles deep, or as far as they could be seen without the aid of telescopes, and somewhat resembling a snow storm, which latter would have been very acceptable to the parched grass and cattle. Drouth very severe—the creeks low, and the weather hot, the common house flies are very thick, and are troublesome as they usually are in September.

Nine-tenths of the wheat crops are destroyed at Fillmore. Chalk Creek very low, fresh recruits of grasshoppers hatching on the benches. The fields of Nephi city, look like the seat of desolation.

Correspondence of the St. Louis Republican
Great Salt City, June, 30.

Nothing of special interest has transpired in these valleys since the date of my last letter. On the 12th inst. an exodus of grasshoppers commenced. They passed through the air for three days in armies of myriads, and were drowned in the lake, the shores of which were so thickly strewn with them as to produce an offensive effluvia. People were congratulating each other on their disappearance, but it was of short duration, for in a few days their places were filled by others from the mountains, and the new comers devoured the little vegetation left, including the third crop which had been sown and was just making its appearance. The drought has also been excessive, and except in the vicinity of some never failing streams where the land can be irrigated, the entire country is parched, and cattle are compelled to seek food on the mountains. Emigration this summer will find forage for cattle extremely scarce.

The Hon. L. Shaver, one of the U. S. Judges of this Territory, was found dead in his bed yesterday at 1 P. M. He had long been in miserable health, could not sleep at night, and his custom was to sit up till near morning and sleep till near noon. When discovered, he presented the appearance of a person in a natural sleep, with mouth and eyes closed, and no distortion of features or limbs, from which it is inferred that he unconsciously expired while calmly sleeping.

THE AMOOR RIVER.—If the statement which was made to the allied fleet at Petropaulowski, that the Russians had 8,000 or 10,000 men at their fortress on the Amoor river, and we are inclined to think it true, we shall not be surprised to hear of a place, up to this time entirely unknown to the world, which will bid defiance to the formidable fleet that has been sent to destroy it.

Among the great rivers of the world, the Amoor, Amur, or Saghalien of Northwestern Asia is perhaps the least known. Yet we know that of all the streams in Northern Asia, boundless as that region is, it is the only one that empties itself into a navigable ocean, which is open to commerce. All the other great rivers of Northern Asia, discharge their waters into the Polar Sea and are thereby lost to commerce. The Amoor cannot properly be called a river of Siberia, but of Chinese Tartary or Manchuria. It rises in about longitude 100 East, and latitude 49 North, and after a very winding course of about two thousand miles reaches the lower part of the Sea of Okhotsk opposite the great island of Saghalin. It may therefore be called the only highway of nature that directly connects the central steppes of Asia with the rest of the world. It receives large streams which rise in Mongolia and Manchuria and the country watered by it is said to be extremely rich in furs. The Chinese and Russians formerly had many settlements on these upper waters, but during the latter part of the last century the latter withdrew. As early as the year 1639, they began to establish colonies on both sides of the Amoor, intending to annex the country to their own, but coming in contact with the Chinese, they relinquished what they had acquired, and fell back to about the 55th parallel, near which is the southern boundary of Siberia. The Chinese took good care, during the last century, that they should not again obtain a foothold on the lower parts of the river, for which purpose they not only established forts, but kept armed boats there. But it now appears that during these last forty years, while Europe has been at peace, the Russians have quietly possessed themselves of this country and erected strong fortresses near the mouth of the great river. So little is known of this stream that we can nowhere find stated what its magnitude is. Judging however from its length, its numerous tributaries, and the vast region drained by it, it must be as large as the Mississippi independent of the Missouri.

The people of Manchuria have considerable civilization, and from it comes the present dynasty of the Chinese Emperors. If, therefore, the Czar has been enabled to enlist the natives in his cause, he may with the aid of iron and timber, which are said to abound there, have erected a more formidable fortress than is to be found on the whole coast of eastern Asia.—*Providence Journal*

THE LONDONER.—This dangerous ledge of rocks lying about a mile distant from Thatcher's Island, is directly in the track of coasting and other vessels from the eastward, bound to Boston or other ports in the bay, south of Rockport, and has long needed a conspicuous and substantial mark to warn the mariner of its location. This requisite is now supplied by the erection of a large shaft of wrought iron, 45 feet in length, 23 inches in diameter at the base, and five inches at the apex, weighing 13 tons.

MAMMOTH APPLES.—A couple of apples were shown to us yesterday by a friend which are decidedly great specimens. The larger one measures 14½ inches in circumference, and weighs 22 ounces, and both are well proportioned. They were brought to this city from Alton, Illinois, and will, we understand, be exhibited at the Horticultural Hall next Saturday.—*Boston Courier*

Some of the papers in Missouri, say they will raise more corn this year, than for any five years before. Much of the wheat land there averages forty bushels to the acre.

The Hon. BENJ. F. WADE, United States Senator from Ohio, has for the last fortnight been speaking from day to day for the Republican cause in Maine, with eminent vigor and efficiency. Very large audiences everywhere await his coming, and he is sometimes required to speak in two different towns on the same day. We notice this, because complaints are made in the Ohio papers of his absence from that State. We believe Mr. Wade is doing as good service to the Republican cause, in Ohio by speaking in Maine as though he were at work in his own State. Maine votes last before the October Elections, and "the Star in the East" ought to light us to victory in the West. *New York Tribune.*

ONE OF THE PIGS.—A friend of ours was arguing in favor of buying large pigs in the spring, declaring it much better than to buy small ones, as they would eat but little more. A neighbor differed from him in opinion, whereupon he told a story which "took down" his opponent, and all hearers declared that small pigs eat some. Said he: "Last spring I bought a little pig from a drove and he was good for eating but wouldn't grow much. He got so, after a week or two, that he would eat a large bucket full at a time and then, like Oliver Twist, bell for more. Well, one morning I carried out a water bucket full of dough, and after he had swallowed it all I picked up the pig and put him in the same bucket I had fed him from, and the *bally* cuss *didn't fill it half full!*—*Lynn News.*

Non-Suiting a Creditor.

There was a certain lawyer on the Cape a long time ago, the only one in those "diggings" then, and for aught I know, at present. He was a man well to do in the world, and what was somewhat surprising, as a limb of the law, averse to incur litigation. One day a client came to him in a violent rage.

"Look a here, Squire," said he, "that are blasted shoemaker down to the Pigeon Cove has gone and sued me for the money for a pair of boots I owed him."

"Did the boots suit you?"

"Oh, yes."

"Well, then, you owe him the money honestly?"

"Course."

"Well, why don't you pay him?"

"Why, 'cause the blasted snob went and sued me, and I want to keep him out of his money if I kin."

"It will cost you something."

"I don't care for that." "How much do you want to go on with?"

"Oh, ten dollars will do."

"Is that all? Well, here is an X, so go ahead," and the client went off very well satisfied with the beginning. Our lawyer next called on the shoemaker and asked him what he meant by instituting legal proceedings against M——

"Why," said he, "I kept on sending to him for money until I got tired. I knew he was able to pay, and I was 'termined to make him. That's the long and short of it."

"Well," said the lawyer, "he's always been a good customer to you. I think you acted too hastily. There's a trifle to pay on account of your proceedings—but I think you had better take these five dollars and call it square."

"Certain, squire—if you say so, and glad to get it," was the answer. So the lawyer forked over the V and kept the other.

In a few days his client came along and asked him how he got along with his case.

"Rapidly," cried the lawyer, "we've nonsuited him! He'll never trouble you."

"Jerusalem! that's great! I'd rather give fifty dollars than had him got the money for them boots."—*Spirit of the Times*

A BOY WITH HORNS.—We noticed some time since a story going the rounds of the press that a negro boy in Caddo parish, in this State, has lately had a pair of horns start and grow out of his head in the place where the horns of the deer grow. We did not credit the statement, and therefore did not notice it, like many other statements which go the rounds of the press. The Caddo Gazette, however, contains a statement signed Thomas Adams, from which it would seem that the rumor is certainly well founded. Mr Adams says:—

"I have been overseer of what is known as the Jones farm, in this parish, near Ferry Lake. There is on the farm a negro boy about thirteen months old, who about a month and a half since had a pair of horns make their appearance on the front part of the head, precisely in appearance to those of a young deer, they are now about one and a half months old, and are six inches long, well covered with velvet, and on one of them two spikes have made their appearance, and are still growing remarkably fast."

This is dated June 25th, and Mr. Adams stated that he intended to take the boy to Barnum for exhibition.—*N. O. Com. Bulletin, Aug. 20.*

Holloway's Pills, the most celebrated Remedy in the Union for the cure of Diseases of the Liver and Stomach. Edmund Alger, of Cooperstown, New York, was for the period of nineteen years a complete misery to himself, and a burden to his friends. He suffered so severely and continuously from liver complaint, and a disordered stomach that he was constantly for weeks together, confined to his bed. The doctors did him no good, and he therefore left off going to them. Nine weeks ago he commenced using Holloway's Pills, and his wife called last week at the store of Professor Holloway, to acknowledge most gratefully that her husband is quite cured—Professor Holloway hopes that the thousands of others in the Union who have been benefitted will now come forward.

Radway's Regulators.

The Third Great Medical Discovery of Radway & Co.

ONE REGULATOR is sufficient to regulate the bowels, Liver and Pancreas, to a healthy discharge of their functions

Two will insure a pleasant discharge from the Bowels, at a regular period of time every day

Four to six will purge thoroughly all corrupt and acrimonious humors from the alimentary canal

Important to Pill Takers.

Every one who is in the habit of taking pills will find RADWAY'S REGULATOR the most pleasant, safe, and effectual regulator of the Bowels, Liver, Pancreas, and the most certain *Purifier of the Blood* in use

One of *Radway's Regulators* is superior, in point of medical strength and efficacy, to six of the most popular and best approved cathartic pills

Radway's Regulator

Radway's Regulators are most carefully prepared from extracts and gums of trees, plants, roots and herbs There are no pills in use that will act upon the Liver, Pancreas, Bowels, the Salivary Glands and Nerves, so pleasantly and effectually as the R R. REGULATORS. No pills can be taken for any length of time with the same safety to the constitution, for, instead of debilitating the system by powerful and drastic purging, they act pleasantly upon the bowels, and impart strength to every nerve and tissue of the body.

Regulators vs. Pills.

We are continually asked, What is the difference between Radway's Regulators and ordinary pills?

We answer that pills, as they are ordinarily prepared and sold by different manufacturers, are generally of two kinds—those which operate on the bowels merely, called purgative pills, and those which excite the secretion of the liver, and are called mercurial or liver pills Radway's Regulators resemble pills merely in shape, but differ in every other characteristic. They act not only on the bowels, but on the liver, skin, pancreas, and kidneys, regulating each organ to a healthy action They are not drastic, and never grip as most purgative pills do, they stimulate the liver without endangering the patient with salivation, as mercurial pills do containing no minerals in their composition, they are harmless when used for a length of time Their ... being enveloped in an elegant coating of gum ... 1 to 3 regulate 3 to 6 purge—good at all times

As a Family Physic

RADWAY'S REGULATORS are the most innocent, safe, mild and pleasant pills in use They are a quick and certain cure for Costiveness, Indigestion, Liver Complaint, Kidney Complaint, Jaundice, Head Aches, Nervousness, Melancholy, Diseases of the Bladder,

Female Complaints,

Leucorrhea, Fluor Albus, Whites and Irregularities of all kinds.

Billious Diseases,

Bile on the stomach, Bilious Cholic, Enlargement of the Spleen, and all Chronic Affections of the Liver and Kidneys,

R. R. R. REMEDIES are sold by Druggists everywhere.

TESTIMONY FROM MAINE

Capt. Daniel Abbott, Brooklin, Maine, July 16, 1854, says "I was taken sick one year ago last April, upon my passage from Havana to Charleston, S C At the latter place I took medicine and procured a physician, but for ten days could obtain no relief, no sleep or appetite At last taking up a newspaper having your advertisement of 'Hoofland's German Bitters' in it, I sent for some immediately, This was about 10 o'clock, at 11 o'clock I took the first dose, and another at 6 o'clock The effect was so rapid on me that I had a good appetite for supper, and rested well that night, and the next day found me a well man—I have not been without your medicine since, having been sailing between Baltimore, Charleston, and the West India Islands ever since I have now given up going to sea and reside in this place, where you should have an agency, as you could sell large quantities of it"

Jos. B Hall & Co, Presque Isle, Aroostook Co, Maine, April 24, 1854, say, "We herewith send you a certificate of a cure performed by the use of *only one bottle* of the German Bitters We think Mr Clark to be a man of veracity, and have no doubt of the truth of his story"

Messrs Jos B Hall & Co—Gentlemen—In answer to your inquiries I will state that my daughter, aged about 16 years, has been complaining of a pain in her side for six or seven years, and about the first of January last was taken down and confined to her bed The pain in her side was very severe, besides being troubled with pains between her shoulders and in her breast. From reading a number of cures performed by Hoofland's German Bitters, I was induced to try them in her case, and sent to your store and purchased *one bottle*. She had taken it but a few days when she began to improve, and now, after taking *only one* bottle, she is enjoying better health than she has for years—She feels no pain in her side or in any part of her body, and attributes her cure *entirely* to the German Bitters. WILLIAM CLARK.

Salmon Brook, Aroostook Co, Me.

You should bear in mind that these Bitters are *entirely vegetable*, thereby possessing advantages over most of the preparations recommended for similar diseases.

KENNEDY'S MEDICAL DISCOVERY

The Greatest of the Age!

MR KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures EVERY KIND OF HUMOR, from the worst Scrofula down to a common pimple He has tried it in over eleven hundred cases, and never failed except in two He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston

Two bottles are warranted to cure a nursing sore mouth

One to three bottles will cure the worst kind of pimples on the face

Two to three bottles will cure the system of biles

Two bottles are warranted to cure the worst canker in the mouth and stomach

Three to five bottles are warranted to cure the worst case of erysipelas

One to two bottles are warranted to cure all humors in the eyes

Two bottles are warranted to cure running in the ears and blotches in the hair

Four to six bottles are warranted to cure corrupt and running ulcers

One bottle will cure scaly eruptions of the skin

Two to three bottles are warranted to cure the worst case of ring worm

Two to three bottles are warranted to cure the most desperate cases of rheumatism

Three to six bottles are warranted to cure salt rheum

Five to eight bottles will cure the very worst case of Scrofula

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day as, that a common weed, growing on the pastures, and along old stone walls, should cure every humor in the system yet it is now a fixed fact If you have a humor it has to start There are no ifs nor ands about it, suiting some cases but not yours He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts He gave it to children a year old, to old people of sixty, and has seen puny looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle

To those who are subject to sick headache, one bottle will always cure it It gives great relief in catarrh and dizziness. Some who have taken it have been costive for years, and have been regulated by it Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week—There is never a bad result from it—on the contrary, when that feeling is gone, you will feel yourself like a new person I heard some of the most extravagant encomiums of it that ever man listened to.

No change of diet ever necessary. Eat the best you can get and enough of it

To the tenderest infant it cannot do harm.

DR. J. H. SCHENCK'S

PULMONIC SYRUP,

For the Cure of Consumption.

THE proprietor of this medicine was himself, many years ago, reduced so low as to be given up by his physicians and friends, in the last stage of Consumption When all hopes of ever getting well had fled he was strongly recommended to use a Syrup made from an old Indian receipt, which succeeded in effectually curing him The family physicians and a large number of respectable gentlemen certified to the facts of this case, and soon the Pulmonic Syrup obtained a reputation never equalled in that section of the country Creating, as this case did, a sensation second to that only of a miracle, Dr Schenck was invited upon by many similarly afflicted to whom he administered the Syrup with the same beneficial results In fact, such was the notoriety of this medicine that eminent physicians had their attention drawn toward the rising reputation of it, from having witnessed its curative powers, and freely extended the hand of friendship to him, in ... Dr Schenck, it is true ... his residence to the ... and used it in their daily practice

No other medicine operates upon the system in the manner that the Pulmonic Syrup does It produces a healthy action upon the diseased parts, by purifying them from disease, it promotes the expectoration, allays the cough, ripens the ulcer on the lungs, and when it is discharged it heals the opening, that the breathing ... the ... access produces, and the Lungs become sound and resume the performance of their natural functions it also soothes the irritated portions of the lungs and other organs, and thus it cures the parts to health A superiority ... most ... is ... over all ... that it contains no opium ... or any other deleterious ... alone

In 1844 Dr Schenck removed from Philadelphia New Jersey, to Philadelphia and commenced the practice of his profession where he soon acquired a reputation excelled by none, in curing and ... that he ... is ... the ... and ... has since then duly ... He would ... testable evidence of his success

Both of his parents died with Consumption, which appears to have been an heir-loom of disease with his father's family All his brothers and sisters except one died early of this disease, none of them but the one brother, attaining the age of twenty

This left nearly the last of his family he naturally felt some alarm as one after another were consigned to the silent tomb by this fell destroyer

VOLUNTARY TESTIMONY.

We the subscribers, residents of Flemington do hereby certify that we are well acquainted with Dr J H Schenck He was attacked by disease which, as we believe, terminated in Pulmonary Consumption; under the operation of which he was reduced so low as to be unable to leave his bed for a long time, and to all appearance was past recovery He is now perfectly well—his cough and fever have left him and we feel justified in declaring it as our belief that these salutary effects have resulted from the use of the Pulmonic Syrup
